DATE: Saturday, September 26, 2009

ACTIVITY: **A Brush with Kindness – Habitat for Humanity Event.** Volunteers assisted in the clean up and light renovation of a home in need of repairs. Following the event, all volunteers were asked to provide comment on the work-related safety, health and environmental conditions found during program participation. These comments and their recommended solutions were combined into a safety/environmental checklist. This checklist was provided to the host Habitat for Humanity organization to assist with future volunteer SH&E awareness training. In this case, the program was facilitated via Coastal Habitat for Humanity in Neptune, NJ.
